

**Newtown Creek Community Advisory Group
Meeting Summary**
October 11, 2017 | Sunnyside, NY

Meeting Overview

At its October 11, 2017 meeting, the Environmental Protection Agency (EPA) Community Advisory Group (CAG) and the public heard updates on recent activities related to the Newtown Creek (Brooklyn/Queens, NY) Superfund Site (Site). Presentations included information on:

- Riverkeeper's Newtown Creek Community Visioning project.
- Draft Remedial Investigation Report and the timeline for reviewing comments on the document.
- Data evaluation for polycyclic aromatic hydrocarbons (PAHs).

The meeting provided opportunities for public questions and input on topics being discussed by the CAG. Presentation slides from the meeting can be found at https://newtowncreekcag.files.wordpress.com/2016/04/cag_report_presentation_10_11_2017_final.pdf. A list of meeting participants is attached to the end of these notes.

For more information about the Site, please visit: <https://newtowncreekcag.wordpress.com/> and <https://cumulis.epa.gov/supercpad/cursites/csinfo.cfm?id=0206282>.
